Tamar Goldstein Hand Poke — Design System & Brand Identity

// client: Tamar Goldstein

// 2026-05-01

// Confidential

01. /executive_summary

Tamar Goldstein is a Hand Poke Tattoo Artist and Illustrator whose work bridges the gap between traditional craft and contemporary botanical illustration. This report formalizes the **Organic Precision** design system, a visual framework built to reflect the gentle, intentional, and soulful nature of her process.

The system is anchored in three core principles: **Soulful Connection**, **Precise Artistry**, and **Natural Harmony**. Every element — from the paper-like background tokens to the stippled micro-textures — has been designed to make her high-contrast illustrations the center of a serene, storytelling-driven experience.

02. /design_philosophy

The design system is heavily anchored in the brand's core values. It must feel organic, intentional, and serene.

Strategic Decision
High Impact
Soulful Connection

Concept: Work done from the heart, focusing on the story and the person.

Application: Use of generous whitespace and an intimate, intentional layout that prioritizes the narrative behind each piece.

Strategic Decision
High Impact
Precise Artistry

Concept: The technical mastery of the hand poke method — dot by dot.
Application: Sharp grid alignment, fine-line borders, and stippling textures that mirror her "pointillism" tattooing technique.

Strategic DecisionMedium Impact
Natural Harmony

Concept: Deep connection to flora, fauna, and the cycles of life.
Application: A palette derived from "The Winter Garden" — muted, earthy, and analog.

03. /color_palette

The palette reflects "The Winter Garden". Muted, earthy tones that feel like natural paper and dried botanicals.

Ink Black
#1A1A1A
Headings & primary art reproduction. Reflects the depth of tattoo ink.
Bone Paper
#F9F7F2
Main background. Mimics high-quality handmade paper.
Sage Metadata
#6B6B63
Secondary text & captions. Provides a soft, botanical contrast.
Earth Dark
#2D2D2A
Hero backgrounds for high-contrast storytelling.

04. /typography

Typography projects **Quiet Authority**. We utilize a mix of traditional serif for artistry and modern sans-serif for precision.

Display & Storytelling: Cormorant Garamond
A timeless serif that provides a sense of tradition, elegance, and artisanal heritage. Used for cinematic headings and the brand name.

Interface & Utility: Inter
A precision-grade sans-serif used for body copy and UI elements. Ensures maximum readability across all devices.

05. /action_items

The following steps move the project from system definition to web implementation:

Approve Design System & Brand tokens
